Subject: service provider recommendation letter

This is a recommendation letter for our service provider Johnsons Inflight News Italia srl. As airport supervisor of an airline company, I know what a dependable service provider means. All the qualities that a key partner must possess can be found in the operations of Inflight News Italia srl.

Our operation and business relations are managed by a friend, Mr. Massimiliano Albini who is extremely professional when it comes to supplying services to a company. Our company, Saudia Airlines has been working with them since 2010 and there has not been a day when we had to complain about their professionalism. They value both time and money and deliver the services within the stipulated deadline.

The same can be said about their pricing policy. They are extremely competitively priced. I came to know only recently that they are looking forward to expanding their business and hence, needed a recommendation letter from us. We are extremely satisfied with the way they conduct their business and hope that you have the same pleasant experience with them.

Thanking You

Flavio Altieri
